

FOREST RESEARCH INSTITUTE DEEMED TO BE UNIVERSITY
M.Sc. Environment Management Term Paper-II Topics (2017-2019)

S.No.	Student Name	Topic
1.	Abhay Kumar Pandey	To study characterization of ozone in the lower troposphere during G-20 conference in Hangzhou
2.	Ahmad Farid Habibi	Impact of climate change and its effect on biodiversity
3.	Aishwarya Joshi	Process of cumulative impacts with reference to Hydropower Projects on Biodiversity.
4.	Alka Shukla	Ecotourism at ecologically restored sites in state of Jharkhand
5.	Astha Walia	Ecological significance of confluences of rivers with special reference to Uttarakhand
6.	C. Lalremruata	Ecological, economic and cultural importance of Bamboo
7.	Kaushal Kumar	A review of Human Wolf Conflict in India
8.	Kaustabh Moni Baruah	The effects of urbanization on wildlife diseases and Animal behavioral adaptations
9.	Kratika Goswami	A review on the status of Gaurs, Leopards and Elephants in the forest area of North Bengal
10.	Laraib Ahmad	Vulnerability assessment: Uttarakhand forest
11.	Minu.K	Watershed Management practices in India
12.	Mitinam Jamoh	Bioremediation of E-waste
13.	Mukta Yadav	Impact of Tourism on Environment in India
14.	Najibullah Omerkhil	Climate change impact on forest ecosystem functions
15.	Priyadarshan Pandey	Wetlands, Carbon and climate change
16.	Rajat Goyal	Impact of climate change on coral reefs
17.	Ruby Yogi	Air quality and climate change
18.	Sandip Rijal	Assessment of climate variance, disaster and their impacts in Kumroj of Chitwan district, Nepal
19.	Shailja Mamgain	Process of cumulative socio-economic impacts with reference to hydropower projects
20.	Shaurya Bansal	Current state of knowledge in conservation reserves of Western Himalaya
21.	Shilky	Impact of climate change on plant phenology
22.	Shubham Singh	Role of remote sensing and geographical information system in climate change
23.	Shubhashree Chakraborty	Goods and services from the east Kolkata wetland and evaluation of ecosystem benefits.
24.	Simran Sekhri	Growth dynamics and biomass productivity of higher plant systems in enriched CO ₂ atmosphere
25.	Sumit Dhali	Body size as a surrogate to wildlife monitoring- A case study with anura from Dehradun
26.	Swati Gupta	Study of in-vitro variations in plants

27.	Tarun	Dendroclimatological analysis of <i>Pinus roxburghi</i> from FRI Dehradun
28.	Tshering Wangmo	Strategies for conservation and propagation of <i>Nardostachys jatamansi</i> (DC) an endangered medicinal plant.
29.	Ugyen Kelzang	Diversity and abundance of macroinvertebrates in the headwater streams of Wochhu watershed, Bhutan
30.	Vaibhav Bangar	Climate change policies in India and analysis of its effectiveness
31.	Vimlesh Kumar	Impact of solid wastes on ground water quality
32.	Yogita Gururani	Effect of Xenobiotics on soil microbial activity
