

Term Paper Name list of 1st Semester 16-18 Batch

S.No	Name	Topic
1.	Aaheli Chaki	Limestone mining in India and its probable impact on plant physiology
2.	Abhishek Khanna	A novel approach towards different transgenic trees and the countries that are working on them
3.	Akshy A. Prakashkar	Moth diversity in fergusson college campus, Pune, Maharashtra
4.	Anand Anil	Gene conservation of forest tree species using DNA Bank
5.	Araghya Chakrabarty	Transgenics in forestry : facts and prospects
6.	Arinderpal Singh	Potential of Melia composite in Punjab in agroforestry
7.	Daylahoya Lukram	A Review of Remote Sensing data in Forestry
8.	Dharani. M.	Agroforestry systems and practices of Tamil Nadu and Kerala
9.	Dorji Norbu	Forest conservation and policies implementation in Bhutan
10.	Freddy N.T.	Agroforestry systems in Karnataka
11.	Garima Mishra	Mutational breeding
12.	Gaurav Arya	Ground water recharge: Need for revival
13.	Harish Bahadur Chand	Carbon sequestration potential of community managed forest of Nepal
14.	Ishpreet Kaur	Epigenetics
15.	K. Prem Kumar Singh	A review of GIS applications in Forestry
16.	Karma Gyelthsen	Status of illegal trade of Wildlife in Bhutan
17.	Khaidem Hitler	Environment stresses and responses of the forest
18.	Mahima	Application of biotechnological tools in forestry
19.	Nani Sunya	Status of paris polyphylla in Arunachal Pradesh
20.	Nidhi	Genetics improvement in forest tree species
21.	Nidhi Bisht	Ecosystem Services derived from wetland conservation
22.	Nitika Sharma	Review of work on genetic improvement of <i>Tectona grandis</i>
23.	Pallavi	Poplar based agroforestry systems in Bihar
24.	Puja Singh	Information status of nematodes in Forestry
25.	R. Abhishek	Prevalent agroforestry systems in Kerala: A Review
26.	Rinu Riba	Comparative assessment of Agroforestry systems of Northeast hill region
27.	Roji Barman	A systematic review on Chinese Pangolin (<i>Manis pentadactyla</i>) in India
28.	Ronak Yadav	Taxonomy, distribution and cultivation practices of selected medicinal trees of FRI Campus
29.	Roop Jyoti Das	Sacred groves of Meghalaya: A review
30.	Sarang Mishrikotkar	The development of Ethology Branch- A Reveiw
31.	Shakti Prajapati	Historical distribution of gangetic Dolphin (<i>Platinista gangetica gangetica</i>) in Ganga basin

32.	Aaheli Chaki	Limestone mining in India and its probable impact on plant physiology
33.	Abhishek Khanna	A novel approach towards different transgenic trees and the countries that are working on them
34.	Akshy A. Prakashkar	Moth diversity in fergusson college campus, Pune, Maharashtra
35.	Anand Anil	Gene conservation of forest tree species using DNA Bank
36.	Araghya Chakrabarty	Transgenics in forestry : facts and prospects
37.	Arinderpal Singh	Potential of Melia composite in Punjab in agroforestry
38.	Daylahoya Lukram	A Review of Remote Sensing data in Forestry
39.	Dharani. M.	Agroforestry systems and practices of Tamil Nadu and

Term Paper Name list of 2nd Semester 16-18 Batch

S.No.	Name	Topic
1.	Ishpreet Kaur	Tissue culture of Forest species: General Methodology
2.	Daylahoya Lukram	Forest fire Scenario in Manipur State of North East India
3.	Prem Kumar	Forest Fire Scenario in Mizoram state of North-East India
4.	Puja Singh	Impact of Climate Change on tree diseases
5.	Khaidem Hitler	Mass production of Bamboo through Propagation methods and techniques: A review
6.	Nitika Sharma	Tools & Techniques associated with tree genetic analysis
7.	Sarang Mishrikotkar	Impact Assessment of Tourism on Vasota
8.	Ronak Yadav	Floristic Diversity of Uttarakhand
9.	Nidhi	Genetical and Biotechnological Tools in Oak
10.	Shubhangi Singh	Sustainable harvesting of medicinal Plants
11.	Dharani M	Wetland Agroforestry
12.	Pallavi	Allelopathy in Agroforestry
13.	Rinu Riba	Bamboo species in North Eastern India with special reference to Agroforestry
14.	Shivani Panwar	Eucalyptus based Agroforestry system in North India
15.	Veenu Mahecha	Agroforestry to Combat Desertification in Arid Zones of India
16.	Nani Sunya	Status of <i>Coptis teeta</i> in Arunachal Pradesh
17.	Dorji Norbu	Growth in Knowledge on Amphibians of Bhutan
18.	Garima Mishra	Application of DNA based markers in characterization and conservation of Forest Genetic Resources
19.	Gaurav Arya	Yamuna: A Dying River
20.	Sipu kumar	Impact of Climate Change on the Western Himalayan Mountain Ecosystem
21.	Karma Gyeltshen	Protected Area System of Bhutan
22.	Roji Barman	International Trade of Chinese Pangolin (<i>Manis Pentadactyla</i>)
23.	Shakti Prajapati	A Review on Historical Distribution of Gangetic Dolphin (<i>Platanista gangetica gangetica</i>) in Brahmaputra Basin
24.	Aaheli Chaki	Formation and Preservation of Fossils in Rocks
25.	Shivam Kishwan	Fern Diversity in the Forest Research Institute, Dehradun
26.	Nidhi Bisht	Ethnobotanical Study of Village Lwali (Pauri Garhwal, Uttarakhand)
27.	Siddhant Somvanshi	Taxonomy of Important Timber Species of Forest Research Institute
28.	Abhishek Khanna	Genetics of Wood Formation: Control and affecting Factors.
29.	Anand Anil	Role of Bioinformatic Software and Databases in Forestry
30.	Araghya	A review on Genetics and functional interaction of endophytes for sustainable growth of host plants
31.	Mahima	Application of Microsatellite Markers in Forestry

32.	Sushant Sharma	An Introduction to SNPs Markers
33.	Akshay A. Prakashkar	Diversity Pattern of Moths in Himalayan Region of Uttarakhand
34.	Arinderpal Singh	Forest fire Scenario in Manipur State of North East India
35.	Freddy N. T.	Coffee Based Agroforestry System in Karnataka
36.	R. Abhishek	Rubber Agroforestry: An Alternative to Rubber Monoculture in Kerela?
37.	E. Elavarasan	Major Diseases of Agroforestry Tree species in India
38.	Harish Bahadur	Broad Study on Carbon Sequestration
39.	Vishnu Satheesan	Preferred Agroforestry Systems in Himachal Pradesh Landscape
